Date: May 1, 2017
To: Robert Knowles, Technical Sales Representative, Lyons Production Services
Subject: A Word of Thanks

Robert,

We are writing this letter, to express our sincere appreciation for Lyons contribution to the successful delivery of Husky's 2017 Winter Drilling and Completions Program.

As a management team we were very pleased with the safety performance that was delivered given the challenges in the industry with the shortage of experienced workers and equipment idle for much of 2016. We had three recordable incidents in D&C, comprised of two hand injuries and one ankle injury. Of note, Lyons was recordable free on Husky D&C operations. Our resultant five month (Dec – April) incident rate for the winter season was 0.94 TRIF. While zero incidents would have been preferred, given the adverse conditions our industry was facing, we feel this was a positive accomplishment made possible through the efforts of Husky and its supply partners to keep safety top of mind. We thank you for this.

With regards to our operational performance, in spite of the aforementioned issues, we had a good winter. We believe Lyons played an important role in our success. We appreciate Lyons ability to supply excellent crews and equipment when needed, the team work your crews showed by working well together and with other services and your willingness to negotiate by leaving your equipment in the area at no charge between jobs. We value the contributions your company and crews made to our winter work and thank you for efforts.

We would ask that you share this letter with those in your company – office and field – who worked on our programs this past winter to pass along our thanks for a job well done.

Sincerely,

Mike MacKinnon
W.C. Drilling
